Yellowstone River
NURSING AND REHABILITATION

Testimonial

"Nursing Staff is High Class" from Jet H.

Having a routine is important to me reading, watching TV, and loving my two cute cats. I had some health issues and had to go to the hospital. After a few surgeries and staying for 14 days, I needed some rehabilitation to recover, and I chose Yellowstone River Nursing and Rehabilitation. I was reluctant at first; however, I am so glad I came here. I would rate the facility 5 Stars! The nursing team was very nice, friendly, and helpful. The food was good and the therapy team was simply amazing. They worked my body hard, to help me reach my goals. After one month of rehabilitation, I'm so glad to be going home back to my routine and enjoying my two cats. I would highly recommend this facility and appreciated their care and compassion.
