Yellowstone River
NURSING AND REHABILITATION

Testimonial

"I truly love it here" from Connie A.

This is my third stay at Yellowstone River Nursing and Rehabilitation, and I would gladly return because I truly love it here. Everyone I have met has been kind, and I am especially impressed with the Physical Therapy and Occupational Therapy teams. They are caring, skilled, and focused on helping me get stronger and stay safe after discharge. I appreciate the personal connection I feel with PT/OT, the nurses, admissions, and social services. When they say, "We love you, Connie," I feel they genuinely care about me and my health. I was not able to join as many activities this time because of the fair, but I have always enjoyed the activities here. I especially have a great time playing BINGO with everyone, and I love the popcorn. My daughter often says how much she appreciates the staff because she knows I am well cared for when she cannot be here. Overall, this place is a shining star to me, and I would recommend it to anyone.
